Website Report

AGM Committee Proposals to be voted

Proposal 1 *The Club increases the Membership limit to a total of 350 paying members.*

Committee proposed.

Proposal 2 *The Club to issue permits only to last day of December in any season. Reason:- increasingly the river is in flood for January and February and often unfishable. It is considered unreasonable to issue a permit beyond December when there is a high likelihood that the Thames is unfishable and the member is unable to use it before the season closes in March.*

Committee proposed.
